HUMAN NEEDS

OUR ETHOS

BASIC HUMAN NEEDS

Yoga Alliance Professionals is a global professional body that supports yoga teachers, trainers and practitioners looking to train to be a teacher.

Our entire ethos revolves around two of the six human needs that we all share, **Growth (Development)** and **Contribution (Serve)**, the sharing and receiving of knowledge and wisdom.

It is the foundation of everything we do, including this acclaimed CAREER PATH for teachers. We work with teachers and trainers to highlight and offer OPPORTUNITIES.

02

YOGA TEACHER PATH

Experienced Teacher

To serve and teach their students at the highest level, all teachers must continue to acquire new knowledge, experiences, and a better understanding of the practices. It's the yoga teacher's **responsibility** to provide students with classes, events and resources.

WHAT OUR COMMUNITY SAYS

MEMBER TESTIMONIALS

VICTORIA SKY

"I am lucky enough to connect with lots of teachers around the world and even luckier to be supported by Yoga Alliance Professionals, I understand from others who have memberships elsewhere that the endless help, encouragement and value I receive from Yoga Alliance professionals is outstanding...I love that I feel part of a family and community and not out here winging things alone."

FENELLA LINDSELL

"I am delighted to be a part of such a valuable community where I feel we can, as yoga teachers, learn and share experiences together. I think the team at YAP are reliable, knowledgeable, kind and very helpful. They are keen to support teachers online, in person and very generous in their tech support too. I'm thrilled to be involved and look forward to many years ahead with them."

JULIE BROWN

"It has been a real pleasure to be a new member of the YAP family. I experience positive, uplifting, responsive and supportive replies to any query I have whether big or small...The videos and documents on all aspects of being a yoga teacher really support me and keep me right e.g. information on GDPR, codes of conducts, marketing and so much more. The materials are accessible and practical..."
